

Cleaning Instructions

CARE AND CLEANING

Cleaning the Windshield or Sun Roof

Normal dust and dirt can be removed using a liquid household glass cleaner. Do not use abrasive cleaners on the windshield and sun roof, as they will cause scratches.

CAUTION!

Be very careful when cleaning the acrylic windows as they can be scratched or damaged. Do not use a cleaner with an abrasive, a combination cleaner and wax or any solvent that contains ethyl or methyl alcohol. Also, do not use products containing ammonia, soaps, or abrasives. Never use gasoline or cleaning solvent. These products scratch or destroy the surface of the windows. To remove oil, grease or road tar use isopropyl alcohol. Then wash the windows with water. Dry gently with a soft cloth or chamois.

Cleaning the Seats

To clean the seats of your GEM vehicle, use warm water and rub with a clean, damp cloth to remove dirt.

Substances such as tar, asphalt, and other soils will stain if not removed quickly. Use a clean cloth and solvent type vinyl cleaner and then wash the area thoroughly with a damp cloth and mild liquid detergent. Finish by rinsing with cool water.

Cleaning the Interior

Use mild liquid detergent and warm water to clean the interior. Wipe using a cloth dampened with warm or cool water or remove detergent or deposits.

Cleaning the Exterior

The best way to preserve your vehicles finish is to wash the vehicle regularly. Use mild liquid detergents only (no strong soaps or chemical detergents), and rinse promptly. Dry the finish with a soft, clean chamois or towel to avoid surface scratches and water spotting.. Note: To avoid spotting do not wash your vehicle in direct sunlight.
